

In the specification:

Page 16, amend the paragraph in lines 2-7 as follows:

The present invention is illustrated in Figure 1. Figure 1 shows a front part of a side view of a forage harvester 1 as considered in a traveling direction 33, with a driver cabin 2 and a shown drive tire 3. An indicating device 4 and an at least one adjusting device 5 as well as further operating elements for the operation of the forage harvester, such as a switch 6 and a drive lever 7, are arranged in the driver cabin 2.
